

PRODUCT CHANGE NOTIFICATION

MAGNETICS

REVISED February 22, 2024

Bourns® Model 2114-V-RC and 2124-H-RC High Current Toroid Inductors

Addition of Manufacturing Site with Change in Packing Tray, Box and Standard Packaging Quantity

Riverside, California - December 4, 2023 – In order to support our fast-growing demand and enhance continuity of supply, effective February 15, 2024, Bourns will establish a new additional manufacturing site in Tunisia for the Model [2114-V-RC](#) and [2124-H-RC](#) High Current Toroid Inductors. A list of affected part numbers is included below.

Affected Part Numbers

2124-H-RC

2114-V-RC

The new additional manufacturing site in Tunisia uses the same design, material, and manufacturing process as the existing site. The inductors produced at the new additional manufacturing site will meet the same data sheet specifications as the inductors from the existing site. The inductors produced from the new additional manufacturing site in Tunisia will also have a change in the packing tray to 286 x 182 x 30 mm, a change in the box to 300 x 200 x 90 mm **and a change in standard packaging quantity to 120 pieces**. The packing trays and boxes used at the existing site will remain the same.

The form, fit, function, quality, reliability, and production lead time of these inductors from the new additional manufacturing site will be the same as those of the existing site. Traceability will be maintained through lot code and date code. The country of origin will change from Honduras to Tunisia for products produced at the new additional manufacturing site.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance.

Implementation dates are as follows:

Date that deliveries of products manufactured at both manufacturing sites will begin: **February 15, 2024**

First date code using the above changes: **2407**

Orders for the affected part numbers received after February 15, 2024 may be filled interchangeably from the existing manufacturing site or the new additional manufacturing site.

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
