## Certificate for RoHS Compliant Products

Certain Hazardous Substances in Electrical and Electronic Equipment Directive, 2011/65/EU (commonly called "RoHS2") and amendment of Annex II on March 31, 2015, 2015/863. designated as conforming to the requirements of the European Union's Restrictions on use of Bourns, Inc. certifies, as of this date, the Annex 1 products listed below ("Products") are

Annex 1 Product List

| ER9.5 Transformer | HVMA03F40C-ST10S |              |
|-------------------|------------------|--------------|
| Description       | BOURNS P/N       | Customer P/N |

The information presented is based on Bourns' understanding of the directives and Bourns' knowledge of the materials that are used in the Products as of the date of disclosure, which, in some cases, is based on information provided by third parties.

| Bis(2-ethylhexyl)phthalate (DEHP)  1,000 Butyl benzyl phthalate (BBP)  1,000 Dibutyl phthalate (DBP)  1,000  1,000  1,000  Maximum limit does not apply to applications covered by RoHS exemptions. MCV is based on | Polybrominated diphenyl ethers (PBDE) Bis(2-ethylhexyl)phthalate (DEHP) Butyl benzyl phthalate (BBP) Dibutyl phthalate (DBP) Diisobutyl phthalate (DIBP) * Maximum limit does not apply to applications covered by |

Exemptions used (if box is checked):

6c. Lead as an alloying element as a copper alloy containing up to 4% lead by 6a. Lead as an alloying element in steel containing up to 0.35% lead by weight

weight.

containing 7a. Lead in high melting temperature type solders (i.e., lead-based alloys

more than 85% by weight or more teach.

7(c)-I. Electrical & electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors.
