GAS DISCHARGE TUBES

Model 2047 Series Heavy Duty Gas Discharge Tube

Riverside, California - October 13, 2010 - Bourns® GDT Product Line is pleased to announce the release of Bourns® **Model 2047 Series** heavy duty Gas Discharge Tube (GDT). The newly released part numbers are:

Model	DCBD (V)
2047-09	90
2047-15	150
2047-23	230
2047-35	350

The product series offers precision voltage limiting performance along with low capacitance and insertion loss. A surge current handling of >40 kA and high AC discharge capabilities make the series ideal for extremely exposed commercial and industrial applications.

Bourns® new model series is available as RoHS compliant*. The product data sheets with detailed specifications can be viewed on the Bourns website at www.bourns.com. Please contact Bourns customer service for samples or if further information is required.

Features

- 12.7 x 12.7 mm
- High surge-energy handling
- Low capacitance and insertion loss
- RoHS compliant* versions available

Applications

- Highly exposed commercial and industrial equipment
- Customer premises equipment
