GAS DISCHARGE TUBES

Bourns® GDT Product Line Releases 2055 Economical Gas Discharge Tube (GDT)

Riverside, California - June 15, 2007 - Bourns is pleased to announce the release of the new 2055 surface mount (SM) 2-electrode GDT surge protection device. These low-cost, miniature GDTs are ideal for board level protection of high-bandwidth applications such as xDSL, cable broadband and high speed Ethernet, due to their high energy-handling capability, long and stable life performance and low capacitance of less than 1 pF.

Bourns® Gas Discharge Tube products are available directly from the factory and authorized distributors. Samples are available upon request.

Features

- Leadless, surface mount for economical assembly
- Compact mini-size
- Low capacitance and insertion loss
- RoHS compliant*
-  UL Recognized

Applications

- Board level protection of high-bandwidth applications such as:
 - xDSL
 - Cable broadband
 - High speed Ethernet
