

Model 56 Panel Control with Rotary Switch

Riverside, California - August 16, 2011 - Bourns® Sensors and Controls is pleased to announce the release of our [Model 56](#) - 1/2" Panel Control with Rotary Switch. This model is an extension of the Bourns® Model 51/53 Series with an added single-pole, double-throw (SPDT) rotary switch module.

This industrial grade product allows the user the flexibility of a panel control plus rotary switch in one compact component. Model 56 is designed for use in various industrial, medical and aerospace/avionics applications.

This model is also an industrial grade, high-performance alternative to readily available consumer grade potentiometers with rotary switches. Model 56 is in stock and available through our authorized e-Commerce distributors to support your immediate application and design-in requirements. Bourns® Model 56 is RoHS* compliant.

Samples and production quantities are now available. For your convenience, the data sheet is available on the Bourns website at www.bourns.com under [Industrial Panel Controls](#).

Please feel free to contact [Bourns Customer Service](#) with any questions you may have regarding this product announcement.

Features

- RoHS compliant*
- CW or CCW rotary switch
- Linear and audio tapers
- PC board and bushing mount
- Splash seal
- Metal bushing and shaft
- Rotational life: 50k cycles
- Contact resistance: 30 mΩ
- Switch rating: 0.5 A
- Switch life: 50k actuations
- Contact bounce: 0.1 ms max.

Applications

- Test and measurement equipment
- Avionics controls
- Communications equipment
- Medical laboratory equipment
