

New Product Release

GAS DISCHARGE TUBES

Bourns Releases New Gas Discharge Tube *Model 2003 Series* *3 x 3.5 mm*

Riverside, California - November 10, 2017 - Bourns is pleased to announce the release of the [Model 2003 Series](#) light duty surface mount Gas Discharge Tube (GDT).

The Bourns® Model 2003 Series is a 2-electrode GDT designed for use in applications that may be exposed to lightning or other transients. The compact GDT offers a maximum 2 kA, 8/20 µsec peak pulse current rating, fast response times and stable performance over its extended life.

The Model 2003 Series has extremely low capacitance, making it an ideal overvoltage protector for high-speed telecom Customer Premises Equipment (CPE) or industrial communications applications.

The Model 2003 Series is RoHS compliant*. The product data sheet with detailed specifications can be viewed on the Bourns website at www.bourns.com. Please contact your local [Bourns Representative](#) or [Bourns Customer Service](#) for samples or for further information.

Features

- Leadless, surface mount for economical assembly
- Compact mini-size
- Low capacitance and insertion loss
- RoHS compliant*
-  UL Recognized

Applications

- Telecom equipment
- Industrial communications
