POWER RESISTORS

Bourns Releases New Power Resistor Series

Riverside, California - May 20, 2009 - Bourns® Fixed Resistors Product Line introduces [Model CRM2512-FT](#). These components are surface mount power resistors with a power rating of 2 W. They can withstand ITU-T K.20, K.21 and K.45 basic test requirements within rated limits, making them ideal for telecom ports designed for Metallic Ended Line Test (MELT) functionality such as ADSL and VDSL2 hardware or test equipment.

Features

- High power density
- Can withstand ITU-T K.20, K.21 and K.45 basic test requirements
- RoHS compliant*

Applications

- Telecom ports designed for Metallic Ended Line Test (MELT) functionality
- ADSL and VDSL2 telecom ports
- Telecom line test equipment
