## Bourns® GDT Products Former ENP F-Series

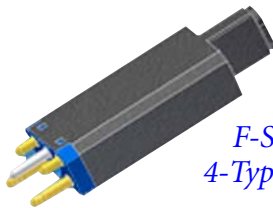

Riverside, California - November 20, 2008 - Bourns® GDT Products Group acquired certain products from Emerson Network Power (ENP). Among them were the F-series 5-pin surge protectors. Models are available with overvoltage and overvoltage plus overcurrent protection (sneak current).

The F Series 5-Pin SuperDuty® GDT Overcurrent Surge Protectors feature high surge-energy handling.

*F-Series GDT 5-Pin  
4-Type/Sneak Current*

The F Series 5-Pin Solid-State Overvoltage Surge Protectors feature sub-nanosecond response time.

*F-Series SS 5-Pin  
4-Type/Sneak Current*

*F-Series SS 5-Pin  
3-Type/Overvoltage*

All models have industry standard footprints and are UL Listed.

Please contact Bourns customer service at (951) 781-5500 if further information is required.

### **F-Series GDT 5-Pin 4-Type/Sneak Current Features**

- High surge-energy handling
- Sneak current protection
- Solid brass gold or tin plated pins
- Designed to Telcordia and RUS standards
- Ⓛ Listing per UL 497 (File E53117)

### **F-Series SS 5-Pin 4-Type/Sneak Current Features**

- Nano-second response to transients
- Sneak current protection
- Solid brass gold or tin plated pins
- Designed to Telcordia and RUS standards
- Ⓛ Listing per UL 497 (File E53117)

### **F-Series SS 5-Pin 3-Type/Overvoltage Features**

- Nano-second response to transients
- Solid brass gold or tin plated pins
- Designed to Telcordia and RUS standards
- Ⓛ Listing per UL 497 (File E53117)
