Bourns® GDT Products Group Releases BalUn Module

Riverside, California - August 15, 2008 - Bourns® GDT Products Group is pleased to announce the release of the [3670-01](#) BalUn (Balanced-Unbalanced) impedance matching module. The 3670-01 is optimized to extend the reach of high speed services with high efficiency conversion of twisted pair to coaxial transmission for HPNA and Triple Play applications.

The 3670-01 is configured with flying leads for connection of the twisted pair circuit and dual mounting flanges to provide superior flexibility in installation.

The 3670-01 is now available through authorized Bourns OSP distributors.

Model 3670-01 Features

- Optimized for extended reach
- Fast and easy installation
- Service interoperability and compatibility with most existing NIDs
- UL Listed per 1863
- RoHS compliant*

Model 3670-01 Applications

- Twisted pair coax conversion
- HPNA
- Triple Play
