SENSORS & CONTROLS PRODUCTS

Bourns Announces a Product Extension for the PSM Series ***Model PSM60 Motorized Slide Potentiometer***

Riverside, California - January 18, 2016 - In line with our commitment to provide products with innovative designs, superior quality and exceptional value, Bourns Sensors and Controls is adding the [Model PSM60](#) Motorized Slide Potentiometer in continuing support of the professional audio and professional lighting markets.

The Bourns® Model PSM60 is a 60 mm version of our popular Model PSM01 100 mm motorized slide potentiometer. Similar to the PSM01, the new PSM60 features:

- Long life carbon element
- Touch sense lever
- Servo track
- A variety of standard resistance values
- A variety of taper options
- PC terminals or snap-in connector option
- RoHS compliant*

This new high-quality product is suitable for use in automated professional audio mixing consoles, broadcast mixing consoles, and professional lighting consoles and controllers.

Samples and production quantities are now available. For your convenience, the data sheet is now available at www.bourns.com.
