CHIP RESISTORS

Bourns® Model CRT Thin Film Precision Chip Resistor Lead Time

Riverside, California - August 31, 2010 - Demand for the Bourns® thin film chip resistor [Model CRT](#) is strong in 2010 and current manufacturing capacity constraints are forcing us to increase average lead times.

The average lead time for this series is now 84 working days. Please take note of this information when you are doing material planning.

Features

- Ultra-tight tolerance
- Wide resistance range
- RoHS compliant*
- Four package sizes available

Applications

- Current sense
- Precision circuits
