### Bourns® ESD Products

Riverside, California - June 20, 2007 - Bourns is pleased to announce the release of a new TVS Diode Array family in a SC70-6L package. The [CDSC706-T](#) family series offers designers a five unidirectional or four bidirectional TVS Diode configuration, with a choice of a working peak voltage of 5 V, 12 V, 15 V or 24 V.

In addition, we have added the [2FAP-M12R](#) product to the ESD & EMI Filter family in a DFN-12 package. The 2FAP-M12R product offers portable electronic designers with six ESD & EMI filters each with a 220 MHz filter cutoff frequency while maintaining the -25 dB filter attenuation between 800 MHz and 3 GHz. This product supports high-speed data line applications for data port, LCD and camera module interfaces.

Product data sheets with detailed specifications and an updated cross-reference list can be viewed on the Bourns website at [www.bourns.com](http://www.bourns.com).

#### CDSC706-T05C~T24C Features

- RoHS compliant\*
- Small SC70-6L package
- ESD protection >25 kV
- Protects 4 bidirectional or 5 unidirectional lines

#### CDSC706-T05C~T24C Applications

- Notebook computers
- Cell phones
- Digital cameras
- PDAs

#### 2FAP-M12R Features

- RoHS compliant\*
- ESD protection >25 kV
- Protects up to 6 lines
- Bidirectional EMI filtering
- DFN-12 package

#### 2FAP-M12R Applications

- Cell phones
- PDAs and notebooks
- GPS and SMART cards
- Color LCD display panel
