## Bourns® Sensors and Controls Division New Focus Market Brochure

Riverside, California - April 1, 2008 - In line with our commitment to provide our sales force with collateral and sales tools, Bourns® Sensors and Controls Division is pleased to announce the release of our new [Medical Industry Products Focus Market Brochure](#) in support of our Focus Market Program.

This brochure gives an overview of various applications where Precision Potentiometers, Encoders and Panel Controls can be used. Applications include diagnostic & imaging equipment, emergency & patient monitoring equipment, medication management, mobility & therapy equipment and surgical equipment.

Copies of the brochure are now available. A soft copy is also available for download in the Library section of the Bourns webpage under Sensors and Controls.

Please feel free to contact any of our Field Application Engineers with any technical questions.
