Bourns® Sensors & Controls New Pro Audio Webpage

Riverside, California - October 4, 2007 - Bourns® Sensors and Controls is pleased to announce the release of our new Pro Audio Webpage in support of our focus on the Professional Audio Market. Sensors and Controls continues to expand its portfolio of products to meet the Pro Audio customers' needs by providing quality products such as commercial panel controls, slide potentiometers, rotary encoders, guitar potentiometers and our recently released motorized rotary potentiometer. Bourns® Sensors and Controls is committed to providing the Pro Audio Industry with reliable components for reliable sound.

For all your Pro Audio component solutions, please visit our new webpage at: www.bourns.com/proaudio. Check back on a regular basis for updates and new product releases as we continue to expand our portfolio of products.

Visit us at the Audio Engineering Society Trade Show in the Jacob K. Javits Convention Center at stand number 1120. For additional information, please visit www.aes.org.

BOURNS®
ROCKS
