### Bourns® Sensors & Controls Product Line Announces the Release of our New Pro Audio Multimedia Webpage

Riverside, California - June 30, 2010 - Bourns® Sensors and Controls Product Line is pleased to announce the release of our new [Pro Audio Multimedia Webpage](#) in continuing support of our focus on the Professional Audio Market. Sensors and Controls continues to expand its portfolio of products to meet the needs of our Pro Audio customers, providing guitar potentiometers, commercial panel controls, slide potentiometers and rotary encoders with a variety of options most frequently requested.

Bourns® Sensors and Controls Product Line is committed to providing the Pro Audio Industry with reliable components for reliable sound. For all of your Pro Audio component solutions, please visit our new multimedia webpage that now includes interviews conducted at the 2010 Winter NAMM Show and a listing of distributors who carry our Pro Audio products.
