## **Model PTV09 Series Potentiometer - New Configurations Released -**

Riverside, California - September 6, 2013 - Bourns Sensors and Controls is pleased to announce the release of six new configurations for our [Model PTV09](#) 9 mm Rotary Potentiometer in continuing support of the consumer market segment.

In response to market demand, Model PTV09 is now available in the following configurations:

PTV09A-1	Horizontal/rear mount w/sleeve bushing
PTV09A-3	Vertical/side mount bushingless (6.5 mm height)
PTV09A-5	Horizontal/rear mount w/plastic plain bushing
PTV09A-6	Horizontal/rear mount w/metal threaded bushing
PTV09A-7	Vertical/side mount w/sleeve bushing (6.5 mm height)
PTV09A-8	Vertical/side mount w/sleeve bushing (10 mm height)

Standard shaft lengths and styles, along with popular resistance values and tapers are available with these new configurations.

*Some features of the Model PTV09 are:*

- Carbon element
- Insulated shaft
- Wide variety of mounting styles
- Center detent option
- RoHS compliant\*

*Some common applications include:*

- Communications equipment
- Portable electronics
- Professional audio/lighting equipment
- Consumer goods
- Commercial appliances

Samples and production quantities are now available. For your convenience, the updated Model PTV09 data sheet is now available on the Bourns website at [www.bourns.com](http://www.bourns.com).

Please feel free to contact [Customer Service/Inside Sales](#) with any technical questions you may have regarding these new options.
