Bourns® Networks Product Line Announces Change in Outline of CAY16-J2 Chip Array

Effective immediately the outline of Model CAY16-J2 has been revised to include scalloped corners in lieu of square corners. The minor dimensional changes in the CAY16-J2 chip array and in its pad layout permit the use of the scalloped cornered array in the same space as the square cornered array.

Pricing for the updated outline of Model CAY16-J2 will remain the same. An updated [data sheet](#) is available on Bourns website.
