

# PRODUCT CHANGE NOTIFICATION

## DIODES

## Select Bourns® TVS/Steering Diode Arrays

### *Additional Supplier for Solder and/or Lead Frame Material*

Riverside, California – July 2, 2024 –To accommodate increasing production demand and in the spirit of continuous improvement, effective January 1st, 2025, Bourns will add an additional material supplier of solder and lead frame for select TVS/Steering Diode Arrays from our existing approved supplier list. The additional lead fame and solder supplier will help with material supply stability. A list of affected part numbers is included below.

Affected Part Numbers
<a href="#">CDSOT236-0504LC</a>
<a href="#">CDSOT236-0504C</a>
<a href="#">CDSOT236-0502</a>
<a href="#">CDNBS08-SLVU2.8-4</a>
CDNBS08-SLVU2.8-4C

The fit, form, function, quality, reliability and electrical performance of the affected products remain the same. Traceability will be maintained through lot code and date code.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance.

#### Implementation dates are as follows:

Date that deliveries of product from additional supplier will begin: **January 1, 2025**

First date code using the above changes: **2501**

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
