### Bourns® Model SRN4026 Semi-shielded Power Inductors *Additional Source of Supply for Inductor Core*

Riverside, California – March 22, 2023 – In order to support our fast-growing demand, enhance continuity of supply and provide maximum flexibility to customers, effective May 25, 2023, Bourns will begin using an additional ferrite core material supplier for the [Model SRN4026 Semi-shielded Power Inductors](#). The additional supplier has been qualified and included in the Bourns Authorized Vendor List. The affected part numbers are shown below.

Affected Part Numbers			
SRN4026-100M	SRN4026-1R0Y	SRN4026-2R2Y	SRN4026-4R7M
SRN4026-101M	SRN4026-1R2Y	SRN4026-330M	SRN4026-680M
SRN4026-150M	SRN4026-220M	SRN4026-3R3M	SRN4026-6R8M
SRN4026-151M	SRN4026-221M	SRN4026-470M	

The use of the core from the additional supplier will not change the data sheet specifications for the Model SRN4026 Semi-shielded Power Inductors. The form, fit, function, quality, and reliability of the inductor will not be affected by the core used. Traceability will be maintained through lot code and date code.

Samples built using cores from the additional inductor core supplier are available upon request. Bourns recommends that customers test the affected part number(s) with the new core in their specific applications for verification of satisfactory performance.

#### Implementation dates are as follows:

Date that deliveries of products manufactured using cores from both sources will begin: **May 25, 2023**

First date code using cores from both sources: **2321**

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
