Bourns® SM91508AL Series Signal Transformers

Additional Supplier for Case

Riverside, California – January 16, 2026 – In order to support our fast-growing demand and improve the flexibility of material management and sourcing lead time, effective May 1, 2026, Bourns will begin using an additional case supplier for the [SM91508AL Series Signal Transformers](#). The additional supplier has been qualified and included in the Bourns Authorized Vendor List. The affected part number is listed below.

Affected Part Number
SM91508AL-E

The fit, form, function, quality, and reliability of the affected part number will remain the same. Traceability will be maintained through lot code and date code.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance.

Implementation dates are as follows:

Date that deliveries of products manufactured using covers from both sources will begin: **May 1, 2026**

First date code using the above changes: **2618**

Orders for the affected part numbers received may be filled interchangeably from either the existing supplier or the new additional supplier.

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
