

PRODUCT CHANGE NOTIFICATION

CERAMIC PTC RESETTABLE FUSES

Bourns® Model CMF-SDP, CMF-RL and CMF-RC Series Ceramic PTC Resettable Fuses *Relocation of Manufacturing Site*

Riverside, California – September 19, 2023 – To accommodate increasing production demands, effective November 13, 2023, the manufacturing site for the [Model CMF-SDP](#), [CMF-RL](#) and [CMF-RC](#) Series Ceramic PTC Resettable Fuses will be relocated to a higher capacity manufacturing facility which is near the existing location. A list of affected part numbers is provided on page 2.

There will be no product design, manufacturing process or material changes as a result of the manufacturing site relocation. The Ceramic PTC Resettable Fuses at the relocated manufacturing site will meet the same data sheet specifications as the Ceramic PTC Resettable Fuses from the existing site.

The fit, form, function, quality and reliability of all affected part numbers will remain the same. Traceability will be maintained through date code.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance.

Implementation dates are as follows:

Date that deliveries of products manufactured at the relocated manufacturing site will begin: **November 13, 2023**

First date code using the above changes: **2342**

Users should verify that the described changes will not impact the performance of the product in their specific applications.

MF02308
