REMINDER

Electrical and Physical Changes to Specified JW Miller® Models on May 1, 2009

As announced on October 31, 2008, electrical and physical changes detailed in the PCN, "[Electrical and Physical Changes to Specified JW Miller SMD Models](#)," were implemented on May 1, 2009. Beginning on May 1, 2009, only the "revised" configurations of the 38 affected JW Miller® models are available for new orders. Please use the link above if you need a copy of the original PCN which includes all the change details.

A last time buy opportunity for any of the 38 affected JW Miller® models in the "original" configuration expired on April 30, 2009. Any orders received on May 1, 2009 or after will be manufactured to the "revised" configuration.

The date code for the "revised" configuration is DC0925 and newer.

Data sheets for the "revised" configurations are now available on the Bourns website at www.bourns.com.
