## Bourns® Model RL110 Series Radial Lead RF Choke Change to Carrier Tray Packaging Design

The carrier tray packaging for the Bourns® [Model RL110 Series](#) Radial Lead RF Chokes has been redesigned. The cavity size of the carrier tray has been reduced and the components have been repositioned to limit movement during the shipping and handling process.

There is no change to the model's form, fit or function. The only change is to the carrier tray packaging for the model.

*Current Carrier Tray  
Packaging Layout*

*New Carrier Tray  
Packaging Layout*

Qualification testing has been completed.

Implementation dates are as follows:

*Date that shipping of existing packaging will cease: January 31, 2014*

*We will begin phasing in the new packaging: February 1, 2014*

*First date code using the above changes: 1405*

If you have any questions or need additional information, please feel free to contact [Customer Service/ Inside Sales](#).
