## Bourns® Multifuse® Product Marking Modification

The products in the [MF-NSMF](#) product family will now be marked with a simple product code identifier. The labeling on the reel and packaging material will detail the full part number and date code. The date code will provide full traceability in line with our quality systems.

The images below illustrate the difference in marking because of the change.

New Part Marking

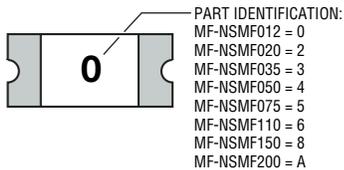

Old Part Marking

The product code identifiers are detailed below and on the product family data sheet.

### Typical Part Marking

Represents total content. Layout may vary.

PART IDENTIFICATION:  
MF-NSMF012 = 0  
MF-NSMF020 = 2  
MF-NSMF035 = 3  
MF-NSMF050 = 4  
MF-NSMF075 = 5  
MF-NSMF110 = 6  
MF-NSMF150 = 8  
MF-NSMF200 = A

BIWEEKLY DATE CODE WILL APPEAR ON THE PACKAGING LABEL:  
WEEK 1 AND 2 = A  
WEEK 51 AND 52 = Z

Please note that **this change does not affect form, fit or function of the product.** There will be no changes to current prices, minimum order quantities or multiples.

Please notify your customers of this marking upgrade.
