Bourns® Fixed Resistors Product Line Announces Changes to the MOQ and Specifications of Model CRA2010

Effective immediately, the following changes will apply to the [Model CRA2010](#):

- The number of standard resistance values available will be reduced to four (0.005, 0.010, 0.015 & 0.020 ohms).
- The Minimum Order Quantity (MOQ) will be reduced from 52,000 units to 4000 units.

In addition, a change to the layout of the resistor will affect the following specifications, also effective immediately:

- The power rating of the Model CRA2010 has been reduced to 1.0 W.
- The length of the termination pad (dimension C on the data sheet) has been increased from 0.60 mm to 0.65 mm.
