

**Bourns® Outside Plant Product Group  
Releases Improved 2410 Series  
5 Pin Protectors**

Bourns is pleased to announce the release of the improved 2410 series 5 pin protector. The 2410 series protectors continue to be based on Bourns patented MSP® technology for excellent protection, performance and reliability. Bourns® MSP® products combine the best features of GDT and solid state technology for fast transient response, high energy handling and low, balanced capacitance appropriate for all xDSL applications. The new 2410 series features gold-plated, solid brass pin construction with optional test point access and sealed unit construction. Bourns® Outside Plant products are available and competitively priced through Power and Telephone, Graybar and other authorized Bourns distributors.
