REVISED AUGUST 15, 2008

Model PDA17 Changes

We will be changing the material used in plating the housing of our [Model PDA17](#). The change from Zinc to Nickel is prompted by phase out of the Zinc material at our current supplier.

Old PDA17 with Zinc Plating

New PDA17 with Nickel Plating

In addition, the knurled shaft without the switch (PDA17-XN15) where “X” designates the terminal style has been changed from 7 mm to 6 mm. This *WILL* affect the form and fit but not the function of this Panel Control in this configuration *ONLY*.

*Old Knurled Length
in 15 mm Shaft*

*New Knurled Length
in 15 mm Shaft*

Effective date code for these changes is 0833.
