REVISED

June 3, 2010

Transfer of Manufacture of Magnetic Custom Specials to Bourns Xiamen Ltd.

The manufacture of a series of Bourns® Magnetic custom specials will transfer to the Bourns facility in Xiamen, China on September 30, 2010. These components were originally supplied by JW Miller. After the asset acquisition of JW Miller in 2006, Bourns continued to supply these parts from the existing factory. Regretfully, these products are no longer available from the current factory. Bourns would like to offer all customers the option of qualifying the new manufacturing location. The alternative option is to place a last time buy of these parts before the manufacturing transfer occurs.

The part numbers affected by this notice are listed below:

Notes: EOL: Only End of Life is available.

Transfer or EOL: To be transferred to Bourns facility in Xiamen, China. If customer prefers this P/N to be built in the U.S.A. only, please order on or before September 30, 2010.

With respect to parts manufactured at the existing factory, orders for all parts listed in the table above will be accepted until September 30, 2010. Final shipments will be made before December 31, 2010. Samples made in the new manufacturing location are available for evaluation upon request. The current lead time is 10 weeks ARO. Samples must be ordered by the end of June, 2010.
