Bourns® / JW Miller Inductors - Through-Hole Models Discontinued

Bourns® Inductive Components Product Line is discontinuing some models of through-hole inductors. The models listed in the table below have had very low usage before and after the acquisition of the JW Miller product line. Models 9130, 9210, 9330, 9340, and 9360 will be discontinued November 1, 2006. As noted, all other models are discontinued immediately.

Some of the models noted below were not in the JW Miller catalog and were not listed in the price list.
