

PRODUCT OBSOLESCENCE MEMO

TCS™ HIGH-SPEED PROTECTORS

Bourns® Model TCS-DL004-750-WH TCS™ Dual Transient Current Suppressor to be Discontinued

Riverside, California – July 25, 2024 – In accordance with our ongoing product life cycle management procedure, Bourns is transferring the [Model TCS-DL004-750-WH TCS™ Dual Transient Current Suppressor](#) to an End of Product Life status effective February 1, 2025. A lack of sales volume and diminishing demand necessitates this action.

Obsolete Part Number	Potential Replacement Part Number
TCS-DL004-750-WH	TCS-DL004-250-WH

The Model TCS-DL004-250-WH is a potential replacement part number. Although the fit and function of this potential replacement part differs from the obsolete part due to size and trip current differences, their specifications are likely to be substitutable for typical applications. Please refer to the Bourns data sheet for more information. Bourns recommends that users test potential replacement parts in their specific application to determine their suitability for the user's specific application.

Customers may continue to purchase the Model TCS-DL004-750-WH TCS™ Dual Transient Current Suppressor during the End of Product Life transition period between now and February 1, 2025. Orders for this part number during this End of Product Life transition period will be considered noncancelable. Products purchased during this End of Product Life transition period will be considered nonreturnable and will be covered by Bourns' standard warranty.

Please plan for the following deadlines:

Last time buy date: **February 1, 2025**

Last time ship date: **August 1, 2025**

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).
