Switch Product Obsolescence Notification

The following six (6) switch product families are scheduled to be obsolete by the end of the year 2003. Previous alerts have been made through our "Switch Optimization" process posted in the Partnership Library section of the Bourns web site at <http://www.bourns.com/brain2/library/optplans.pdf>.

This notification affects all versions (standards and specials) of the referenced models:

- 7643SMD 7 mm Square Sealed Selector SwitchNo Alternate Available
- 7644SMD 4 mm Square Sealed Selector SwitchNo Alternate Available

- 7743SMD 7 mm Square Sealed Coded SwitchNo Alternate Available
- 7744SMD 4 mm Square Sealed Coded SwitchNo Alternate Available

- 79066 mm Square Key SwitchSee conversion list attached
- 7916SMD 6 mm Square Key SwitchSee conversion list attached

Last-time buy orders will be accepted through the end of July 2003 with shipments to be completed by December 31, 2003. There will be no scheduling of orders.

Letters will be provided for all identified customers who purchased these products during 2001 and later. The letter will detail the specific Bourns model numbers purchased along with the customer's internal part number, if known.

Data sheets will be removed from the Bourns web site two weeks from the date of this memo. They will be available in the Bourns Partnership Library.
